The blog post for this activity can be found here: http://prekinders.com/sandwich-shop-math

To prepare this game, print and cut apart the menu cards. Purchase and cut craft foam sheets into the sandwich pieces, as follows:
- Bread: tan or beige foam - cut into squares
- Ham: pink - cut into squares
- Lettuce: green - cut into squares
- Tomatoes: red - cut into circles
- Cheese: orange - cut into squares

To play the game, have children choose a menu and count out the correct amount of each of the sandwich pieces to build their sandwich.
Sandwich Shop Menu

2 bread
3 ham
1 lettuce
2 tomato
4 cheese
